Let's Start!

How well do you sleep at night?

Learning Outcome

Exchange advice and suggestions in communicative situations.

Ask your partner:

- Do you have sleepless nights occasionally? What do you do?
- What advice would you give to someone who can't sleep?

Can Do Statements

- I can talk about jobs and work.
- I can talk about staying healthy.
- I can give advice.

Let's Explore!

Sally tells Vanessa about a sleepless night.

Instructions: Read the text aloud.

Vanessa: Hello, Sally.

Sally: Hey, Vanessa. What's up?

Vanessa: I'm just waking up. I had a late night at the restaurant. I wish I could catch up on my beauty sleep, but I have an early morning yoga class.

Sally: If you're not working today, you ought to take a nap this afternoon.

Vanessa: That sounds like a very good idea. What's going on with you?

Sally: Well, I actually didn't sleep much at all last night.

Vanessa: Why? What happened?

Sally: I'm not sure. I think work was on my mind a lot, and I had a heavy meal late in the evening.

Vanessa: If writing is on your mind, you should do something relaxing in the evening.

Sally: Right. I think I should take up jogging or something because I feel like I've put on weight.

Vanessa: You'd better cut out the poutine as well.

Sally: Give me a break. I don't want to pass out while I'm running.

Vanessa: You won't, but you don't want to work out just to work off the calories you consume.

Sally: Fine. I'll give it up. If I cut down on the sweets, my weight should be fine.

Phrasal Verbs about Staying Healthy

There are many phrasal verbs that are used to talk about staying healthy.

Phrasal verbs are made up of a verb and a particle (a preposition or adverb). Some common particles such as "on" or "off", help to make verbs with new definitions. These new meanings are often not literal. For example, **to look up** means to gaze upwards (He **looked up** into the sky) but to **look up** also means to search for some information, usually in a book (*I looked up the meanings of all the new words I learned in class today .*)

Phrasal Verb	Meaning and Example
build up	an increase in something, often slowly over a period of time <i>Example: It takes regular hard work to build up your muscles from exercising.</i>
put on	to add something such as weight or muscle <i>Example: I really need to go to the gym. I put on a lot of weight last month.</i>
take up	to become interested in doing a new activity <i>Example: I'm going to take up skiing this winter. I've never done it before, but it looks fun.</i>
cut out	to stop doing something, often to improve your health <i>Example: I need to cut out smoking if I want to run a marathon.</i>
give up	to quit doing something, often for health purposes <i>Example: I gave up sugar 2 months ago and I have so much more energy.</i>
